

Look like wood... Feel like wood... Better than wood

Introducing a door that does not Rot, Rust, Fade, Crack, Warp or Bend.

SurakshaTM Composite Doors are manufactured to world standards under licence from RV-TIFAC, Composite Design Centre and have cleared all tests as per IS 4020:1994. Our maintenance-free doors are most suitable for all types of rugged applications.

Granalite was the first to get technology from RV-TIFAC (A collaborative venture of Govt. Of India, NAL and CMC Ltd.). The company continues to be a forerunner in manufacturing quality products.

In the last 20 years we have catered to innumerable individual customers, institutions and organisations.

SurakshaTM Composite Doors look like wood, feel like wood but are better than wood. SurakshaTM Composite Doors are better in terms of performance and quality over all conventional materials used viz. Wood, PVC, Aluminium, Flush Doors, Plywood, Blockboard, etc.

Suraksha™ Composite Doors have exceptional features. They are:

- Economical
- 100% Water proof
- Maintenance-free
- Strong than wood due to Joint less moulded construction
- Long lasting
- Highly secure
- Available in attractive colours, sizes
- Available in elegant designs for main door, pooja room, bed room, and bathroom
- Ready to fit to any frame – wood, metal, concrete and FRP
- Ready to fix with minimal Carpentry required

Additionally, they do not

- Require periodic painting or polishing. Painting can be done if required.
- Expand or contract according to weather conditions.
